

Nexus Training with ACI

Module 1: Nexus 7K, 5K, 2K Hardware and architecture, License, Line cards.
Virtual Output Queue.

Module 2: Virtual device Context and its design scenarios

Module 3: Virtual Port Channel and its design scenarios

Module 4: Fabric Path

Module 5 High availability Features.

Module 6: Implementing OTV.

Module 7: Implementing QOS in Nexus.

Module 8: Nexus 9K Hardware and architecture in detail.

Module 9: Implementing VXLAN

Module 10: Application Centric Infrastructure and its implementation with VMware, and L3 connection

Nexus Training without ACI

Nexus

- Module 1: Nexus 7K, 5K, 2K Hardware and architecture, License, Lines cards.
- Virtual Output Queue.
- Module 2: Virtual device Context and its design scenarios
- Module 3: Virtual Port Channel and its design scenarios
- Module 4: Fabric Path
- Module 5 High availability Features.
- Module 6: Implementing OTV.
- Module 7: Implementing QOS in Nexus.
